mechanisms of ageing and development

Volume contents

Volume 87 (1996)

Evaluation of patterns of urinary proteins by SDS-PAGE in rats of different ages
J.A. Calzada-García, M.N.P. González, F.J. Benito-Andrés, L.J.M. García, J.A. Cabezas, C. Sánchez-Bernal (Salmanca, Spain) 1

Food restriction increases the protection of erythrocytes against the hemolysis induced by peroxyl radicals
C. Pieri, F. Moroni, M. Marra (Ancona, Italy) 15

Short-term caloric restriction augments age-related decreases in gastrin content and release
K.U. Chu, B.M. Evers, J. Ishizuka, R.D. Beauchamp, G.H. Greeley, Jr., C.M. Townsend, Jr., J.C. Thompson (TX, USA). 25

Mitochondrial electron transport chain activities and DNA deletions in regions of the rat brain
C.R. Filburn, W. Edris, M. Tamatani, B. Hogue, I. Kudryashova, R.G. Hansford (MD, USA) 35

In vitro senescence enhances IL-6 production in human gingival fibroblasts induced by lipopolysaccharide from *Campylobacter rectus*
N. Ogura, U. Matsuda, F. Tanaka, Y. Shibata, H. Takiguchi, Y. Abiko (Chiba, Japan) 47

Relationship of age and calcitonin gene-related peptide to postprandial hypotension
B.J. Edwards, H.M. Perry III, F.E. Kaiser, J.E. Morley, D. Kraenzle, R. Stevenson, K. Kreutter (St. Louis, MO; Groton, CT) 61

Expression of α_1 adrenergic receptor subtype mRNAs in the rat cardiovascular system with aging
J.W. Miller, Z.-W. Hu, M. Okazaki, M. Fujinaga, B.B. Hoffman (Palo Alto, CA) 75

Differential survival, natural selection, and the manifestation of senescence
J.E. Riggs (Morgantown, VA) 91

Termination by early deletion of $V\beta8^+$ T cells of aged mice in response to staphylococcal enterotoxin B
M. Hosono, T. Hosokawa, Y.-i. Aiba, Y. Katsura (Kyoto, Japan) 99

Aging-related decrease in liver peroxisomal fatty acid oxidation in control and clofibrate-treated mice. A biochemical study and mechanistic approach
R. Périchon, J.M. Bourre (Paris, France). 115

Influence of physical exercise on aging rats: I. Life-long exercise preserves patterns of spontaneous activity
M. Skalicky, H. Bubna-Littitz, A. Viidik (Vienna, Austria; Aarhus, Denmark) 127
Interferon-β, an autocrine cytokine, suppresses human fetal skin fibroblast migration into a denuded area in a cell monolayer but is not involved in the age-related decline of cell migration
H. Kondo, Y. Yonezawa, H. Ito (Sakae, Japan; Tokyo, Japan) 141
Age-related morphological changes in the hippocampus in two mouse strains
M. Barkats, J.-Y. Bertholet, C. Cohen-Salmon (Paris, France) 155
Epigenetic selection as a possible component of transdifferentiation. Further study of the commitment of hypertrophic chondrocytes to become osteocytes
J. Erenpreisa, H.I. Roach (Riga, Latvia; Southampton, UK) 165
Heterogeneous aging of macrophage-lineage cells in the capacity for TNF production and self renewal in C57BL/6 mice
Y. Shimada, H. Ito (Chiba, Japan; Tokyo, Japan) 183
Dysregulation between TH_1 and TH_2 T cell subpopulations in the elderly
I. Cakman, J. Rohwer, R.M. Schutz, H. Kirchner, L. Rink (Lübeck, Germany) 197
The limit to human longevity: an approach through a stress theory of ageing
P.A. Parsons (Brisbane, Australia). 211
Gene regulation of senescence marker protein-30 (SMP30): coordinated up-regulation with tissue maturation and gradual down-regulation with aging
T. Fujita, T. Shirasawas, K. Uchida, N. Maruyama (Tokyo, Japan). 219
